- ***Warren Smith- Author and Conference speaker on deception in the Churches***

We will be discussing the issues that will relate to Biblical Prophecy with an evangelical pre-tribulation viewpoint.

The goal of this Conference is to:

- ***Build up the body of Christ and equip us to go forward in our Christian walk.***
- ***Inform us of the deception that is creeping into the fellowships in the last days and the subtle methods used.***

The speakers we trust will compliment each other and will once again up date us, warn us and build us up to prepare us for the challenges Believers will face in our day to day walk with Christ our Redeemer.

This year we once again have a heavy schedule and would appreciate your prayers for the speakers, the organizing committee and the resources needed for a successful conference.

We are pleased to inform you that we are sending to Roger Oakland \$2000.00 for Myanmar missions and in 2012 we will be disperse to Friends of Israel for the Church needs in Israel from any funds remaining from the conference in 2012.
